LABOUR AND THE GLOBAL CRISIS: SHARING THE BURDEN! SHAPING THE FUTURE?

VI. GLOBAL LABOUR UNIVERSITY CONFERENCE

Berlin, 14-16 September 2010

Berlins School of Economics and Law /
City Hall Berlin-Schöneberg

The Global Labour University invites trade unionists and academic scholars to explore ideas for a progressive alternative to the failed globalisation regime. Fundamental change is required to protect people and societies against the current economic disorder. Democratic decision making needs to be the master of the market and not vice versa.

In this unprecedented global crisis, business as usual is not an option. In response to this crisis, we will see either the dismantling of the welfare state and the public sector, or a policy change to reduce inequality, provide universal public services, progressively tax income and wealth, and strengthen democracy vis-à-vis economic interests. Even a largely uncontrollable financial and economic breakdown cannot be ruled out, if the irresponsible financial markets are not brought under control.

The VI. GLU conference aims to provide a space for generating progressive responses to this crisis and the challenges labour is facing.
