

GLOBAL TEAM OF TRAINERS AND TUTORS (GTTT) WORKSHOP

MAY 24 - MAY 27, 2022, KASSEL

A three-day workshop for the members of the Global Team of Trainers and Tutors (GTTT) took place in Kassel, Germany on 25-27 May 2022. The workshop brought together 22 trainers from 14 countries across the world: Argentina, Brazil, Cambodia, Germany, India, Kenya, Nigeria, Philippines, Peru, Serbia, Trinidad and Tobago, Turkey, Uganda and Vietnam.

This global team was created in January 2021. After more than a year of intensive online training, engagement and collaboration, this face-to-face event provided the much-needed space to share experiences, continue the learning process and above all solidify the commitment to the political project of popular education. The workshop also provided the space to discuss the future direction of the GLU Online Academy and determine the specific role of the GTTT in the various components of the Academy's work. To this end, the GTTTs joined different working groups to support these components.

The next major activity of the GTTT is experimenting with blended learning for the online course [Just and green: labour's ecological question](#). The course will run again in a tutored mode in September 2022. The GTTT members will pursue a localised intervention, which includes forming study circles with trade unionists and activists in their own networks to enrol and complete the online course, organising online discussions to support their learning and eventually meeting face-to-face in localised workshops. Feedback from this process will be used to consolidate the blended learning model of the Online Academy.
